QUALITY AHEAD OF ITS TIME.

20 YEARS FROM NOW, YOUR MIELE WILL STILL IMPRESS YOU.*

Whether it's laundry, dishwashing, cooling or kitchen appliances, you'll get outstanding quality with Miele.

That's why we continue to win Which? Best Buy and Which? Eco Buy awards.

WHY MIELE?

CRAFTSMANSHIP

SINCE 1899, WE'VE NEVER BEEN SATISFIED WITH THE BEST.

For us, every ground-breaking innovation is more than a cause for celebration. It's a challenge to create something even better. That's why we craft our own parts, forge our own iron and even make the machines. Because striving for perfection is in our DNA. We call it: Immer Besser.

PERFORMANCE

10,000 HOURS OF TESTING - THAT'S PROPER PROOF OF PERFORMANCE.

Where others are satisfied after a few rounds of testing, we go further for longer. Some car engines need 3,000 hours of testing - we check our performance with up to 10,000. In fact, 30% of our development time goes into testing. Ensuring ultimate results - year after year.

SUSTAINABILITY

LONGEVITY IS THE ULTIMATE SUSTAINABILITY.

Imagine, instead of using many appliances over the years - just using one. One whose performance will still impress you years from now: using less water, less energy, less detergent. So you consume less. And do lasting good.

*During the development phase of the displayed product series W1, T1, G7000, H7000, DGC7000 and ESW7000, Miele has tested the functionality of core components in durability tests simulating 20 years average use in an average household. More: miele.co.uk/20years

WHAT DOES IT DO?

NikolaTesla redefines simple daily tasks by combining two kitchen elements that are generally separate - a hob and a hood -, thus creating the perfect marriage between technology, functionality and aesthetics.

Never worry about kitchen fumes and odours again! NikolaTesla's aspirating core technology is completely hidden within the hob, which allows for a linear design that is both highly performing and energy efficient. NikolaTesla allows you to work freely on the hob's surface, making it ideal for even the most elaborate food preparation.

Our food waste disposers and steaming hot water taps are designed for modern living and busy lifestyles. Whether you are a small or large family, love entertaining or live on your own, these appliances will suit any style of kitchen.

The Government plans for separate food waste collections for every UK household ultimately mean that smelly food waste will be collecting in a caddy in your kitchen. You can avoid this by installing a waste disposal unit, eliminating food waste instantly.

Why a food waste disposer is the responsible choice

Your food waste is ground into tiny particles by your InSinkErator® disposer

These are flushed through your plumbing to the wastewater treatment plant

Where they can yield valuable biogas

and fertiliser for agriculture

Food waste is a growing problem

7 million tonnes of household food goes to waste each year. That's £13 billion of food purchased and thrown away. Part of that waste goes to landfill sites, where it emits harmful greenhouse gasses. This could yield renewable energy or natural fertiliser but just 10% is separately collected and less than 7% is home composted. 19 million tonnes of greenhouse gasses are produced every year, just from household food waste.

Product Information

The basic information in this brochure is intended as a guide only and more detailed information can be found on our Partners Portal (partners.pjh.uk). However, in either case, we would recommend you consult the manufacturers literature or contact the appropriate Technical Service Department for exact specifications. Whilst every effort has been made to ensure the details contained in this brochure and online are correct, the product offered and conditions of sale may differ from those described or illustrated.

Deliveries

At the time of delivery, you must check all products for any sign of packaging or product damage and check the number of products delivered against the delivery note. You should report any damaged or missing products within seven days of delivery to our Customer Service Team on 0800 8 77 88 99. Please note that we will not be responsible for any damaged or missing products under delivery which are not reported within this time.

Returns

A return can be requested for any faulty products that do not operate in line with manufacturers guidelines. A return can be requested for products that are surplus to requirements and must be returned within thirty days of delivery*. Special order products that are surplus to requirements cannot be returned. The condition of the products must be confirmed at the point the return is requested.

A return can be raised by calling our Customer Service Team on 0800 8 77 88 99 or emailing sales@pjh.uk or via the Partners Portal: partners.pjh.uk. An email will be sent (to the e-mail address you have provided) to confirm the return request has been raised.

*Miele products that are surplus to requirements cannot be returned.

Faulty Products

For faulty Prima and Teka appliance products you should contact the dedicated Aftercare Team on 0344 576 6841 who will arrange for an engineer visit to inspect the product(s). Following inspection, faulty products will be repaired or replaced.

For branded appliances, in all instances, the manufacturer will insist on repairing faulty products on site and must be given this opportunity. Contact details should be provided with your appliance(s), if you don't have these please call our Customer Service Team on 0800 8 77 88 99. Sinks and taps that are returned as faulty will be returned to the manufacturer for inspection and credit will only be issued, in part or full, as agreed by the manufacturer.

Surplus to Requirements

Products must be returned within thirty days (of their original delivery) in their original packaging and in a re-saleable condition. PJH reserves the right to request photographs of the proposed returned products to confirm condition at the point of return. A standard re-stocking charge of £25 will apply, per order, and must be paid in line with our agreed payment terms. Any products that are surplus to requirements but reported outside of the thirty days from delivery are not eligible for return.

Collections

PJH will attempt to collect products, where reasonably possible, within three days of the return being raised. We will attempt two collections of the return, if both attempts fail, the return will be cancelled. At point of collection the goods returned must be presented in line with the reason for return. PJH drivers are instructed not to accept any products for return that do not comply with the criteria for products that are faulty or surplus to requirement. Collection of products by us does not imply that full credit will be given. If products are received in a condition not stated on the paperwork, PJH reserve the right to refuse any credit. Credits for returned products may take up to three days following PJH or manufacturer inspection. Please note: Manufacturer agreement times may vary.
