Contour Heritage Green / Chateau Green /

A Natural Evolution in Colour

This year, we're introducing two new green colours across three of our core collections—each thoughtfully selected to enhance the way spaces feel and flow.

The colours in our home have a considerable influence on our mood and sense of wellbeing and while our perception of colour is deeply personal, green is consistently associated with balance, calm, and connection. As nature's most enduring hue, it draws us inward towards simplicity, clarity, and quiet beauty.

Find Contour Heritage Green in the Chiltern Collection on **page 166** and Chateau Green in the Pentland and Selter Collections on **page 202** and **page 212**.

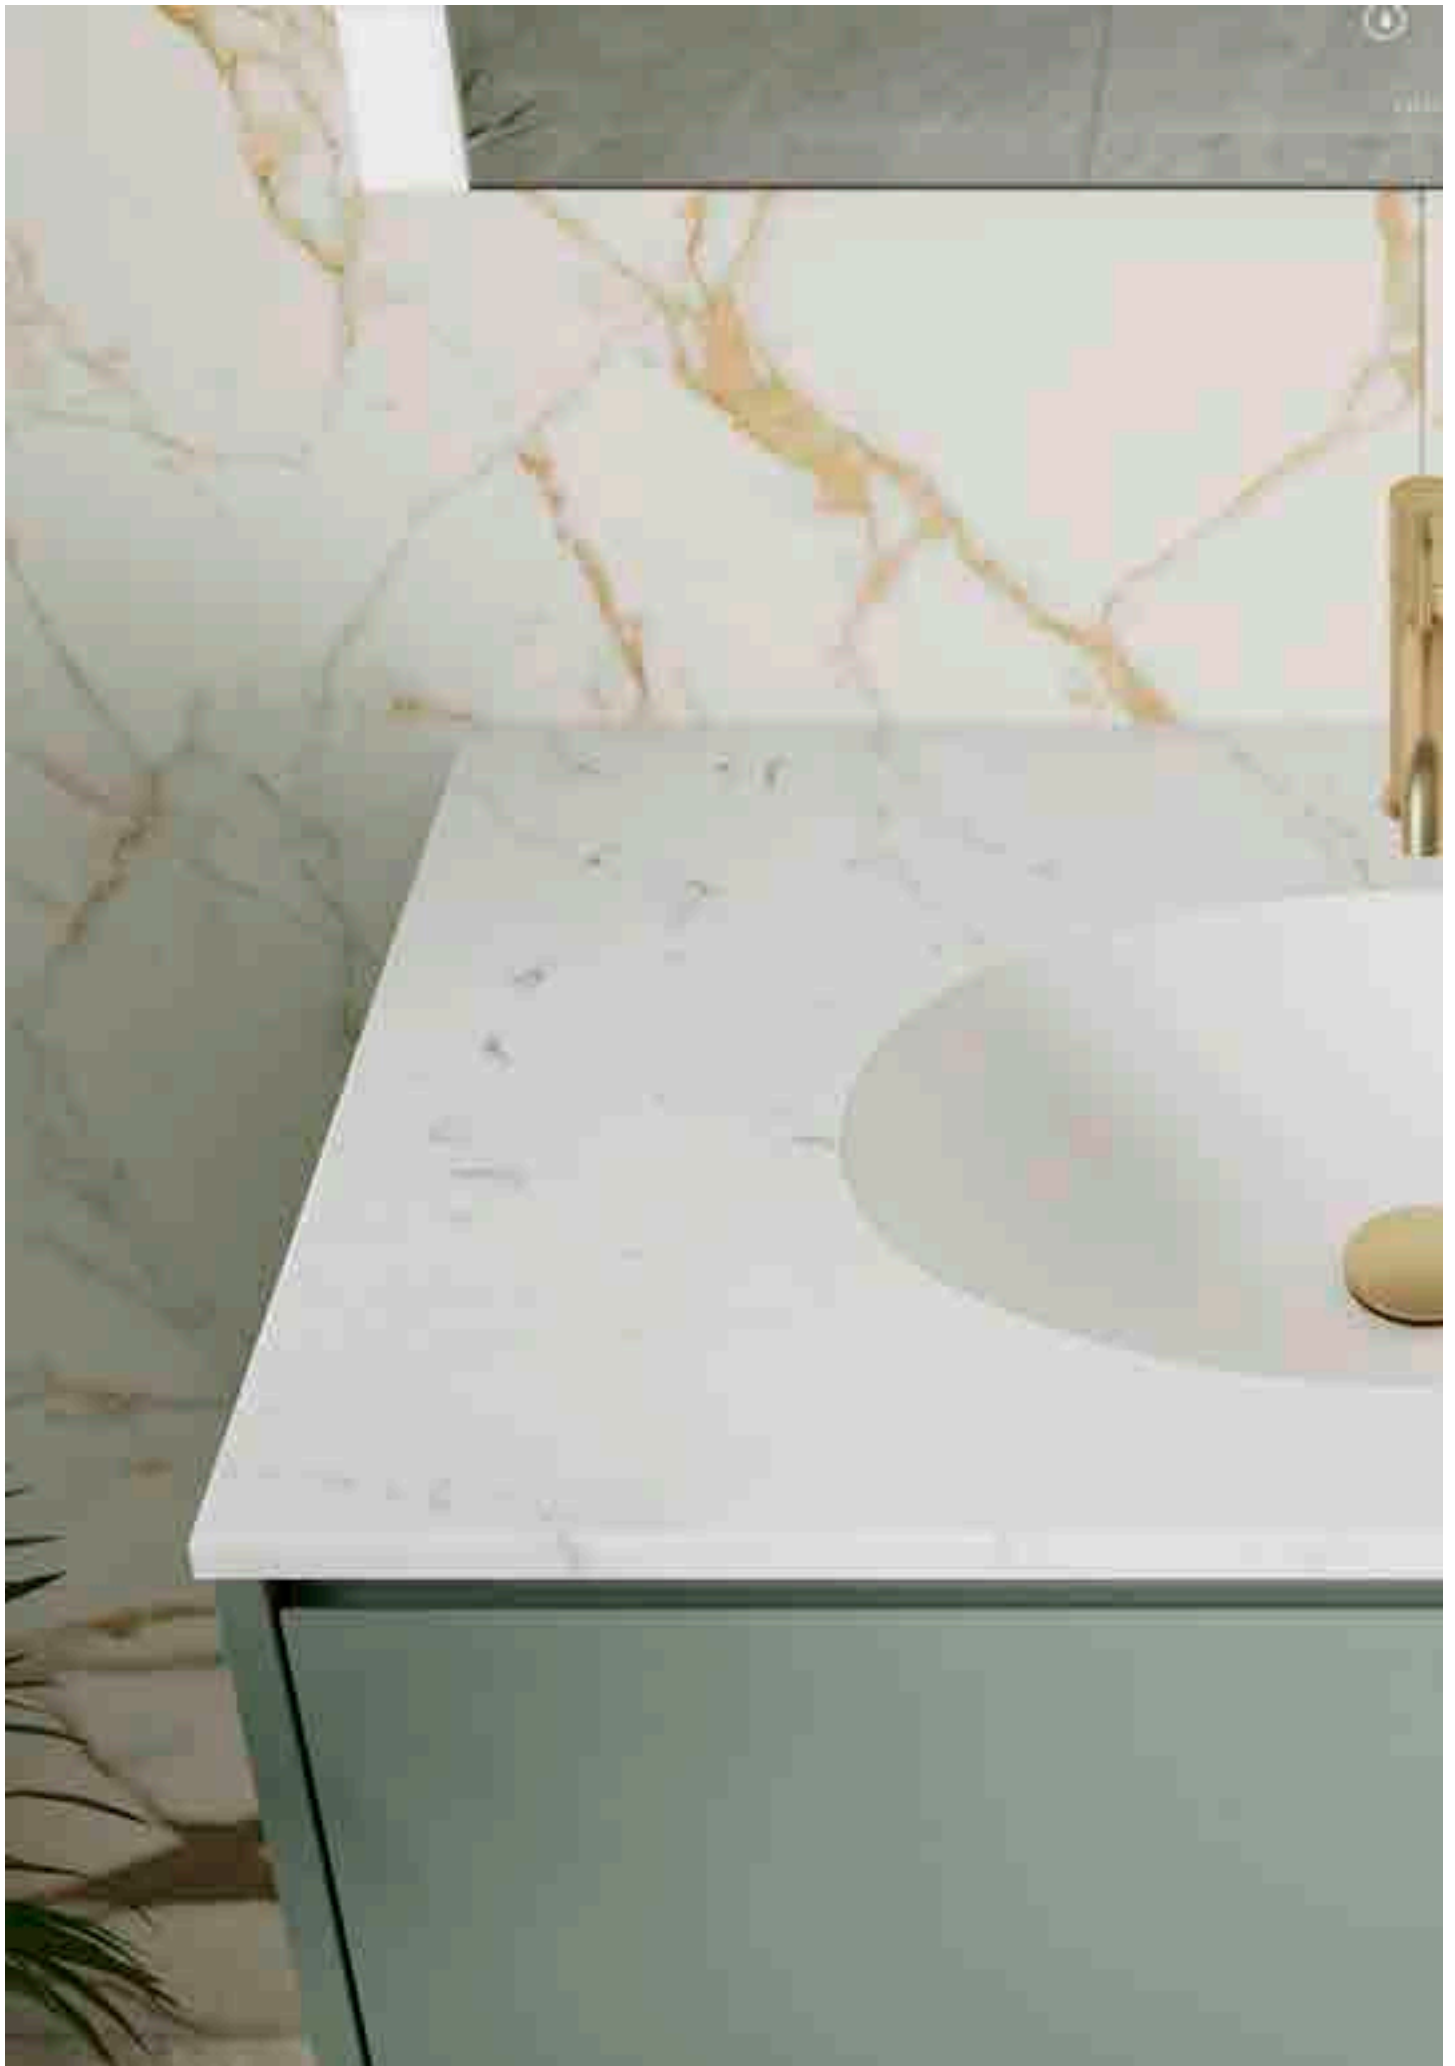

Contour Heritage Green: Chiltern

Chateau Green: Pentland, Selter

“These new additions are designed to work in harmony with our existing palette, offering greater flexibility in creating cohesive, timeless bathrooms with a refined sense of character.”

Cashmere Cream

"Perfect for those looking to create interiors that are both timeless and expressive, these tones adapt beautifully to a wide range of materials, finishes, and styles—making them an ideal foundation for bathrooms designed with intention."

Contour Truffle / Contour Mussel /

The New Neutrals

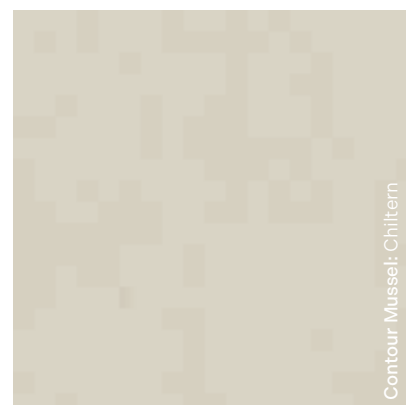

We have seen a change in what people seek from neutral colours. Rather than cool minimalism, there's a growing appetite for a new wave of warm tones that still evoke calm but bring a little more depth, richness, and personality.

These nuanced shades offer all the versatility of traditional beiges, but with a distinctly modern sensibility. Infused with subtle red and earthy undertones, they feel grounded yet elevated—offering emotional warmth and a sense of lived-in ease.

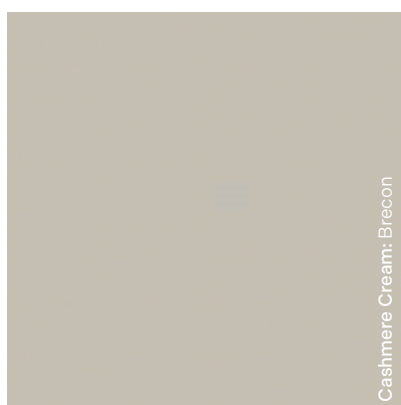

Find Contour Truffle and Contour Mussel in the Chiltern Collection on **page 166** Cashmere Cream can be found in the Brecon Collection on **page 138** and Soft Linen in the Petra Collection on **page 90**.

Tortona Oak / Persian Walnut

Enduring Woodgrains

In an era where interiors are increasingly shaped by the desire for comfort, connection, and authenticity, the tactile warmth of wood has never felt more relevant.

Wood textures are enjoying a resurgence as a timeless response to our collective longing for natural materials that ground and soften modern spaces. From refined oak grains to rich walnut tones, woodgrain introduces an organic layer that adds both visual interest and emotional warmth.

Whether used as a subtle accent or a statement finish, woodgrains bring a sense of balance and calm, seamlessly pairing with both contemporary and classic elements.

Find Tortona Oak in the Tesima Collection on **page 104** and Persian Walnut in the Levanto Collection on **page 74**.

“In the bathroom, where functionality and feeling must coexist, these textures lend a quiet elegance—rooted in nature yet refined for modern living.”

Mirrors

Introducing the Ostuni Mirror

New to our mirror collection, Ostuni brings a quiet elegance through its softened form and refined simplicity. Defined by its rounded corners and minimalist profile, this design balances modern geometry with a subtle sense of softness making it as versatile as it is timeless.

With two button touch control operations, you can easily adjust the brightness, LED warmth, and activate the demister for a consistently fog-free reflection. Ostuni blends confident style with everyday ease

Understated, balanced, and beautifully resolved, Ostuni reflects our continued commitment to feeling that follows form.

Find the new Ostuni mirror on **page 228**.

Mirrors

Introducing new sizes for the Marbella and Lixa mirrors

Good design lies in the details and in the ability to offer solutions that feel as considered as they are beautiful. We are expanding two of our most-loved mirror collections – the Marbella and Lixa collections are receiving additional sizes, designed to offer even more flexibility across a range of bathroom layouts.

Whether you're working with a compact ensuite or a generously scaled master bathroom, the extended sizing ensures a more tailored fit, without compromising on form or function. Each mirror retains the thoughtful proportions, clean lines, and refined finishes that define the collection, now made even more adaptable to individual spaces.

Find Marbella Mirror on **page 230** and Lixa Mirror on **page 237**. More choice, same timeless aesthetic.

Vanity worktops that fit our standard vanity units are categorised into three sizes: 600 Vanity, 800 Vanity, and 1200 Vanity, the size is displayed next to each worktop, make sure the width and depth are compatible with your chosen vanity. Each worktop is designed to fit a range of vanity sizes with a slight overhang.

Calypstone Aura Worktops 12mm or 18mm

Available in options of 12mm and 18mm thickness, Calypstone Aura Solid Surface Worktop are made from a mixed compound of natural minerals and acrylic resins. This material is the same all the way through, is completely non-porous and the smooth surface is resistant to most domestic chemicals. It can be cut and shaped using standard woodworking tools, and the cut edge sanded and polished to a perfect finish by hand.

Easy Clean: The inherent properties of Calypstone Aura make it very easy to clean and maintain. It is resistant to most household chemicals and disinfectants and is best cleaned simply with warm soapy water and then dried and buffed with a soft microfibre cloth. Full care instructions are supplied with each worktop.

Durable: You can look forward to many years of service from Calypstone Aura worktops. The material does not degenerate naturally nor fade, and if well cared for, will continue to look as good as the day it was installed.

Hygienic: The Calypstone Aura material contains an antibacterial agent that combats bacteria and prevents its growth. This makes it perfectly suited to bathroom surfaces, and means it can also be used in healthcare and food preparation areas.

Bathroom Essentials

Basins

Whether you're looking for a sleek modern basin or a more traditional style, our selection caters to every aesthetic. Explore our range of sit-in, sit-on, block, and semi recessed basins, and choose from ceramic or cast marble options to suit your desired look. Ensure compatibility by referring to the displayed basin options on each vanity collection page.

Cast Marble

Our Cast Marble basins are crafted from Dolomite Marble, a substance born from volcanic processes. Through milling, purification, and blending with polymer resin, they take shape before a protective layer of resin and quartz gel coating is applied, preserving both pigment and achieving a flawlessly smooth, durable and easy to maintain finish.

Ceramic Basins

Ceramic basins are meticulously crafted from molten fireclay, shaped into moulds, and expertly glazed before undergoing the final firing process. Their enduring quality makes them suitable for both contemporary and traditional bathroom settings. Ceramic is easy to maintain, as stains can be effortlessly removed, ensuring a pristine appearance.

Semi Recessed Basins

Semi recessed basins are designed to be partially rebated into the worktop over a basin unit and projecting forwards slightly to offer an ergonomic design. All models include a cutting template, for a perfect fit when scribing the upper fascia panel to the basin.

How to Order Guide: Overflow Rings

When it comes to basins, getting the details right can make all the difference, especially when you're matching them with brassware and handles. That's where understanding overflow rings becomes essential. These rings not only ensure your basin works properly but also play a role in enhancing its overall look and feel. Use the table below to find the right overflow for your basin and then choose the colour that best matches your bathroom:

Basins with no overflow:

These basins do not have an overflow. Therefore, there's no need for an overflow ring. We recommend using a free-flowing unslotted waste with these basins.

Basins with built-in overflow:

Some basins come with an overflow that is glazed or designed as an integral part of the basin. In such cases, an overflow ring does not apply.

Basins with a standard overflow:

These basins come with a chrome overflow ring as standard. However, the overflow ring is interchangeable, meaning you can change it to match your bathroom.

WHAT IS A RIMLESS PAN?

Traditional toilets distribute the flush water through a series of holes around the underside of the rim of the pan. However, the 'Rimless' pan does away with this under-rim, meaning the water can flow faster and with no hindrance to create an enhanced flush.

The rimless toilet looks no different on the outside.

The main difference is that the pan boasts a smooth bowl with reduced areas for bacteria or lime-scale to build up and settle, which makes a significant difference for cleaning and improved hygiene compared to traditional pans.

Highest standards of Hygiene

No hidden spaces for germs to harbour.
Allows for easy cleaning.

Perfect cleaning

Unique flush system means the water flows both vertical
and around the rim covering the entire surface.

Quieter & Faster

Rimless technology allows for a more silent and
faster flush than standard WC pans.

LED Recessed Lighting

LED recessed lighting can be installed to provide illumination throughout the bathroom and to highlight specific areas such as the shower or vanity. Our LED recessed lights are conveniently supplied in packs of four, designed to fit wherever you need with a slim profile and included hardware to ensure an easy setup.

What is an LED Lighting Strip?

Using an LED lighting strip in your bathroom can enhance both functionality and ambiance. You can install LED strips under cabinets to illuminate the countertop, around the back of mirrors for even lighting, or along the ceiling edges to highlight architectural features.

Supplied in three popular length kits, these lighting strips can be cut to fit any size of unit. The special 3M self-adhesive backing tape allows you to stick them to almost any surface with ease.

Zoned Lighting

Water and electricity are a dangerous combination so when choosing bathroom lights it is essential that you familiarise yourself with two terms; Bathroom Zones and IP Ratings. When purchasing bathroom lights you need to ensure that the fitting you choose has the relevant IP rating for the zone in which it is to be placed. So what are IP Ratings and Bathroom Zones?

IP RATING 1ST DIGIT			IP RATING 2ND DIGIT		
	OBJECT SIZE	PROTECTED AGAINST		PROTECTED AGAINST	TESTED FOR
0	-	NO PROTECTION.	0	-	NO PROTECTION
1	>50 MM	PROTECTION AGAINST ANY LARGE SURFACE AREA OF THE BODY BUT NOT DELIBERATE TAMPERING OR FORCE.	1	DRIPPING WATER	DRIPPING WATER – NO DAMAGING EFFECT WHEN TESTED AGAINST VERTICAL FALLING WATER DROPS.
2	>12.5 MM	FINGERS OR SIMILAR SIZED TOOLS AND OBJECTS.	2	DRIPPING WATER WHEN TILTED UP TO 15°	VERTICALLY DRIPPING WATER HAS NO DAMAGING EFFECT WHEN THE LIGHT ENCLOSURE IS TILTED AT AN ANGLE UP TO 15° FROM ITS USUAL POSITION.
3	>2.5 MM	THICK WIRES, TOOLS AND SIMILAR-SIZED FOREIGN BODIES.	3	SPRAYING WATER	WATER FALLING AS A SPRAY AT ANY ANGLE UP TO 60° HAS NO DAMAGING EFFECT.
4	>1 MM	MOST WIRES, SCREWS, ETC.	4	SPLASHING WATER	WATER SPLASHING AGAINST LIGHT ENCLOSURE FROM ANY DIRECTION HAS NO DAMAGING EFFECT.
5	DUST PROTECTED	Protected against dust, allowing limited ingress. (no harmful deposit)	5	WATER JETS	WATER PROJECTED BY A NOZZLE (6.3MM) AGAINST LIGHT ENCLOSURE FROM ANY DIRECTION SHALL HAVE NO DAMAGING EFFECT.
6	DUST TIGHT	Dust tight. No ingress of dust.	6	POWERFUL WATER JETS	WATER PROJECTED IN POWERFUL JETS (12.5MM NOZZLE) AGAINST THE LIGHT ENCLOSURE FROM ANY DIRECTION HAS NO DAMAGING EFFECT.
			7	IMMERSION UP TO 1M	WATER WON'T INFILTRATE EVEN WHEN LIGHT ENCLOSURE IS IMMERSSED IN WATER UP TO 1M IN DEPTH. DURATION OF UPTO 30 MINUETS.
			8	IMMERSION BEYOND 1M	THE EQUIPMENT IS SUITABLE FOR CONTINUOUS IMMERSION IN WATER UNDER. CONDITIONS SPECIFIED BY THE MANUFACTURER.

IP 67

IP67. The item is protected from dust and capable of withstanding water immersion upto 1 meter for 30 minutes.

ZONE 0 Covers the areas inside the bath or shower tray. If you decide to illuminate this area the fittings must be low voltage and must have a minimum rating of IP67 making them immersion proof.

ZONE 1 Incorporates the area directly above the bath or shower tray to a height of 2.25m from the floor. A light with a minimum IP44 rating is required for this area. If the light uses a 240V supply, a 30ma RCD (residual current device) must be used to protect the circuit in this zone.

ZONE 2 Covers the area 0.6M outside the bath's perimeter and to a height of 2.25M from the floor. As with Zone 1, a minimum IP44 rating is required for this area.

ZONE 3 Outside zones cover areas which fall outside of zones 0,1 and 2 and are well away from any contact with water. No IP ratings are required for light fittings in this area.

Installation must be made in accordance with the current IEE wiring regulations and relevant building regulations. Calypso recommends that all electrical bathroom products should only be fitted by a suitably qualified Part P registered electrician.

Product Specifications

Door Finishes and Carcass Colours All our door finishes are supplied by default with the complementary carcass colour indicated on the inside front cover of this brochure. If you require a different combination of fascia and carcass finish, you must specify each separately using individual product codes (shown within the 'Breakdown' section). The relevant finish codes need to be added to each product code when ordering. For exact colour matching, please request a sample by calling 01432 367 367.

Carcasses All carcasses and fascias are pre-drilled and marked for fittings, with fully adjustable all-steel soft-close hinges on doors and soft-close drawer runners featuring four-way fascia adjustment. Carcasses are supplied with hinges, wall-fix brackets, and fittings; base units include adjustable legs and plinth fittings.

Please note that all plinths, end panels and handles must be ordered separately. The unit dimensions shown are overall installed measurements including fascias and plinths. 661mm carcasses are supplied with 150mm legs and 561mm carcasses come with 250mm legs.

You can also choose between three finished base unit depths—218mm, 303mm, and 443mm. All carcasses are made from 18mm MFC and finished with PVC edging.

Doors, Plinths and End Panels All doors, plinths, and end panels are constructed with an 18mm MDF furniture-grade core, ensuring durability and a high-quality finish. There are three available options to choose from: vinyl wrap, painted, and cut and edged. To maintain the warranty, any cut edges must be properly sealed.

For those looking for a natural wood option, the solid oak door features a 70x20mm solid oak frame with an oak-veneered centre panel. As with all natural materials, variations in shade and grain should be expected, adding to the unique character of each piece.

Laminate Worktops Laminate worktops are formed using a particle board core with a decorative laminate surface and balancer on the underside. They are offered in options of square edged and postformed designs and are pre-sealed on all edges. Additional edging strip can be purchased to finish any cut edges.

Decor End Panels When planning, remember to allow for décor end panels on any exposed end-of-run base or wall unit carcass, adding 18mm for each end panel required.

Plinths Our 250mm plinth can also be used as a flyover shelf for additional design features.

Assembly and Drilling All carcasses are supplied fully assembled, with doors and fascia panels packed separately for fitting after installation to help avoid damage. Door and drawer fronts are supplied undrilled for handles, giving you maximum flexibility in handle choice.

Slimline Basin Units Slimline basin units require reduced-depth semi-recessed basins. Calypso units are designed at a height that allows good access underneath to run soil pipes and water feeds, with a choice of 150mm or 250mm plinths.

Soil Pipe Access Due to space restrictions in slimline units, the rear legs should be removed to run a soil pipe through. Rigidity is maintained by the front legs and wall fixings.

Concealed WC Cisterns All our concealed WC cisterns allow front-access servicing. If you use a different manufacturer's cistern, please check service-access requirements.

Dimensional Tolerance Because of materials and production processes, dimensions may vary within a tolerance of ±2mm on furniture, ±3mm on cast basins, and ±5mm on ceramic.

Taking Care of Your Calypso Products

Ventilation and Moisture Control Calypso bathroom furniture is designed for use in domestic environments, making good ventilation essential to prevent damage from excessive moisture—whether on surfaces or in the air. A suitable extractor fan is strongly recommended to avoid condensation and its associated risks. Please note that Calypso timber-based fitted furniture should never be installed in wetrooms.

Sealing and Spills Any cut or exposed panel edges, and any floor or wall abutments with furniture or sanitaryware, must be sealed with a waterproof sealant such as silicone. Wipe clean and mop dry all water spills immediately.

Cleaning Products Never use chemical or abrasive cleaners, bleach, or furniture polishes on bathroom furniture. Clean only with a soft damp cloth and mild soap solution.

Solid Oak An occasional application of wax-based furniture polish will maintain its finish. Do not use household cleaners or abrasive powders on oak. Remove spills immediately with a soft damp cloth and mild detergent; excessive moisture will darken the oak surface.

Ceramic Sanitaryware Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid abrasive solvents, acid, or ammonia.

Cast Basins Calypso cast basins are manufactured from a mineral powder/polyester resin, protected by a gelcoat of at least 0.5mm thickness. Clean with a normal liquid detergent (no abrasives) and buff with a quality polish to keep tops in pristine condition.

Brassware Clean with a damp cloth, rinse, and polish with a dry cloth. Avoid cleaners containing abrasive solvents, acid, or ammonia.
